Random patterns: completion from partial cues at 20 stored patterns, means over seeds

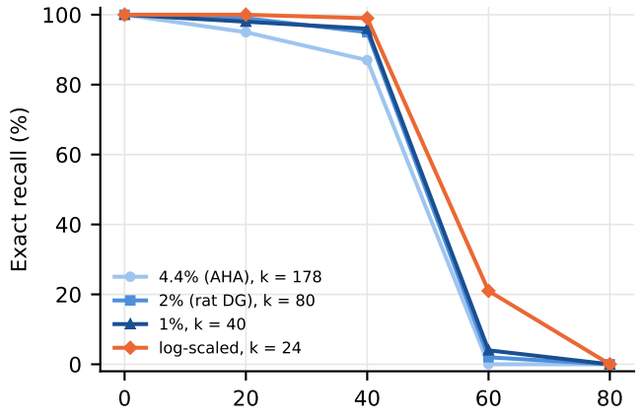

Pseudo-inverse, 225 cells: exact recall

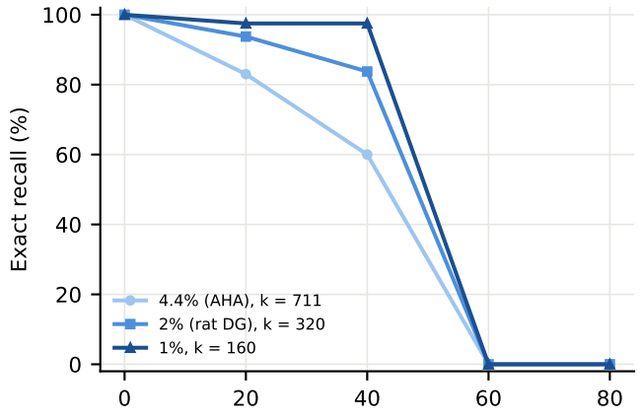

Pseudo-inverse, 1,000 cells: exact recall

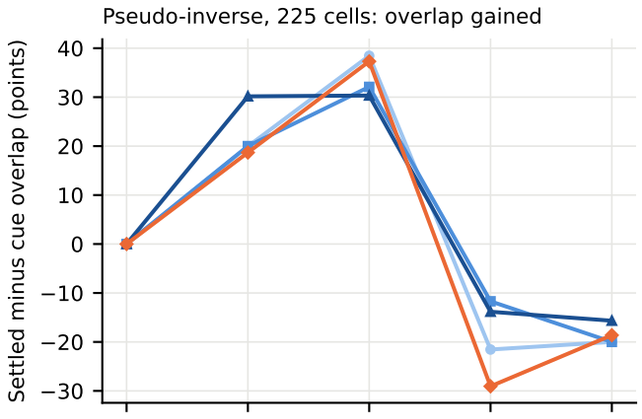

Pseudo-inverse, 4,000 cells: exact recall

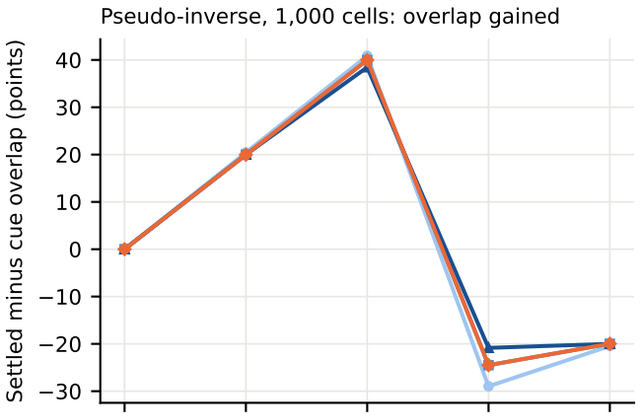

Pseudo-inverse, 16,000 cells: exact recall

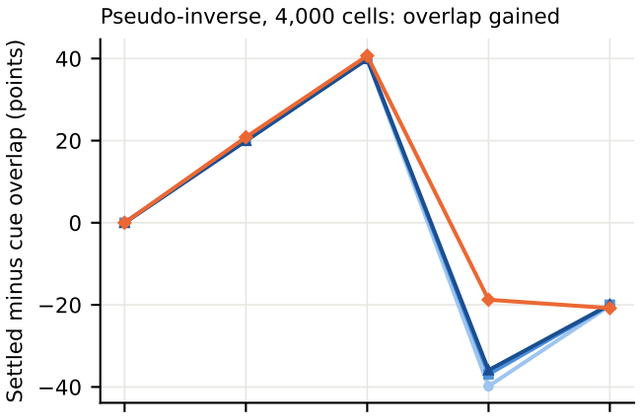

Pseudo-inverse, 225 cells: overlap gained

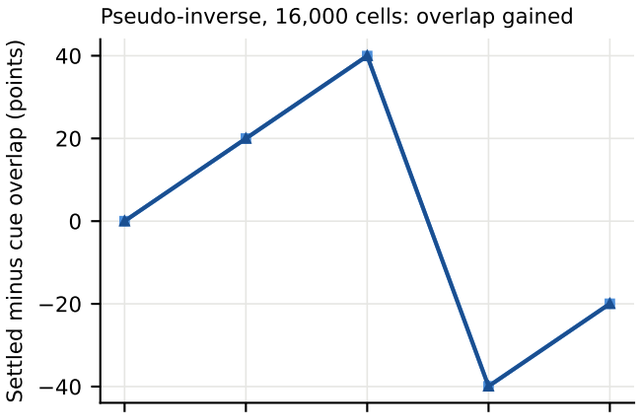

Pseudo-inverse, 1,000 cells: overlap gained

Pseudo-inverse, 4,000 cells: overlap gained

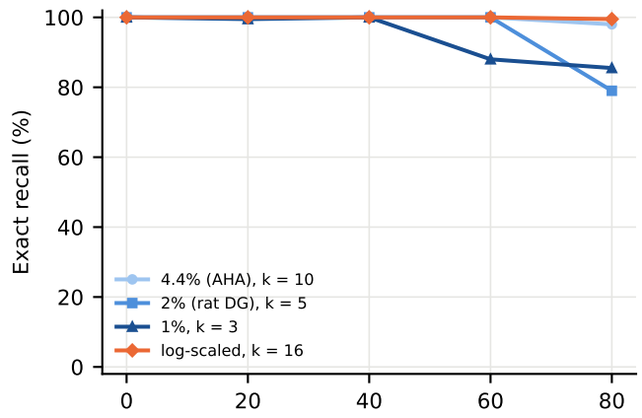

Pseudo-inverse, 16,000 cells: overlap gained

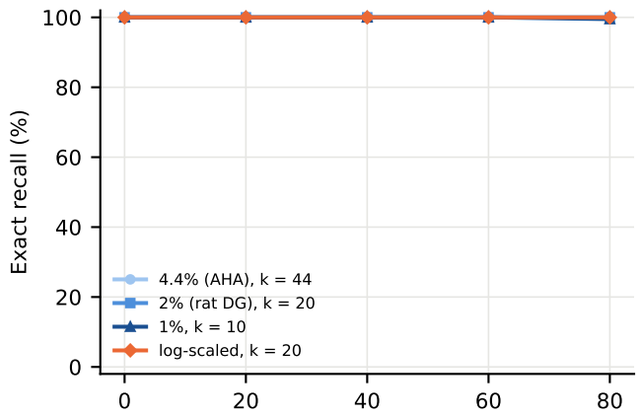

Cells removed from the cue (%)

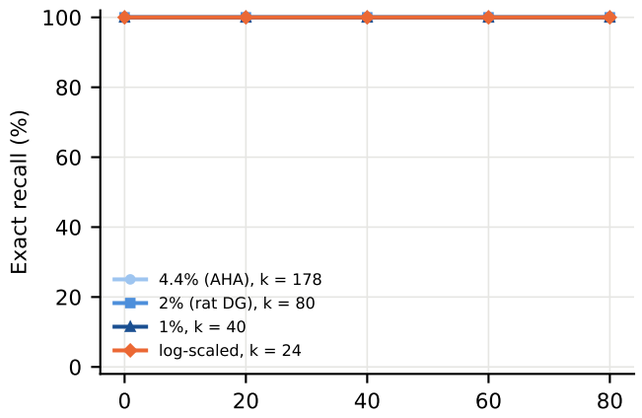

Covariance, 225 cells: exact recall

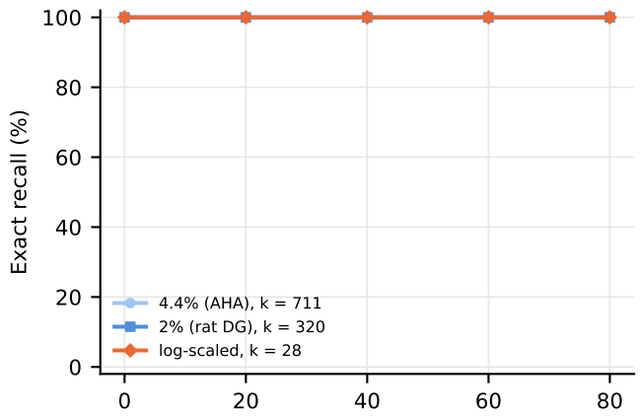

Covariance, 1,000 cells: exact recall

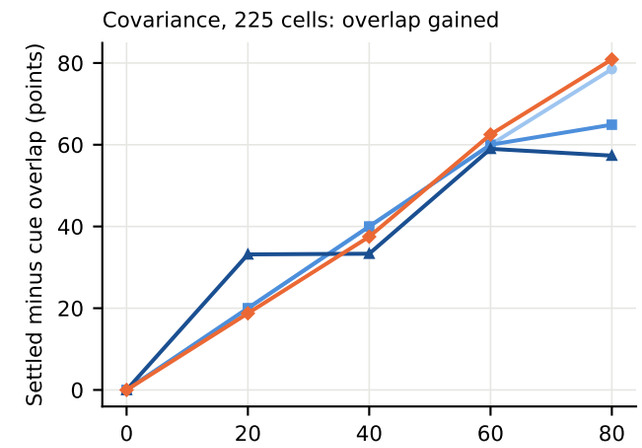

Covariance, 4,000 cells: exact recall

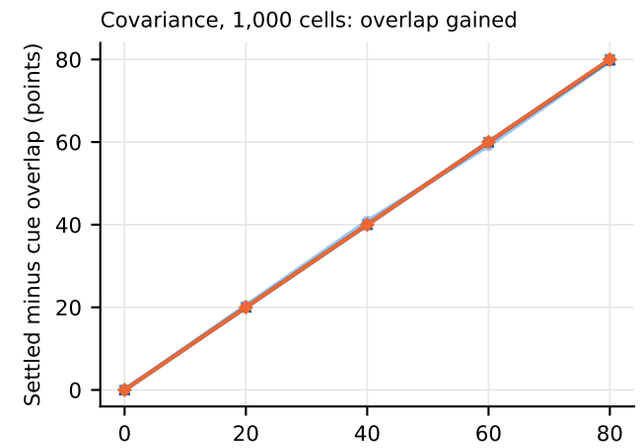

Covariance, 16,000 cells: exact recall

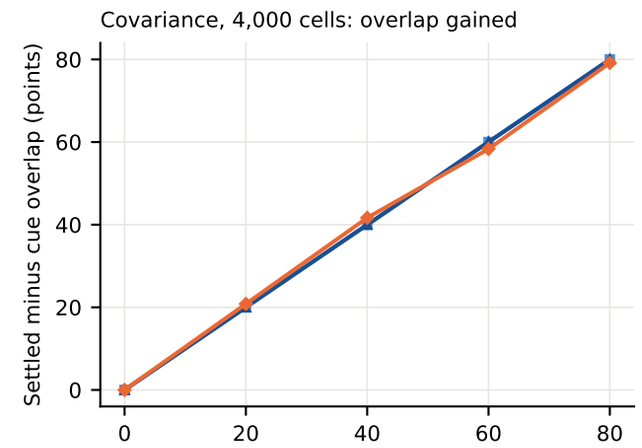

Covariance, 225 cells: overlap gained

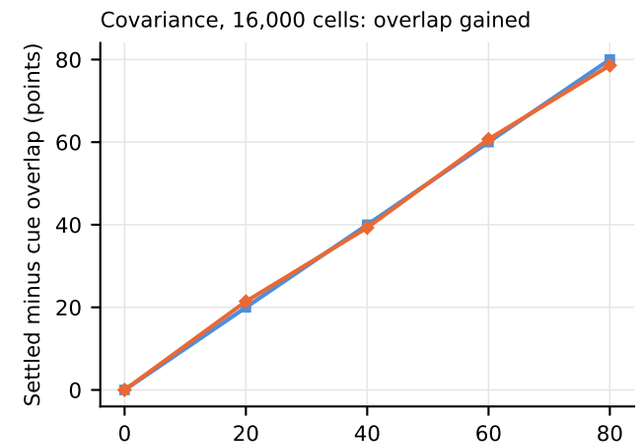

Covariance, 1,000 cells: overlap gained

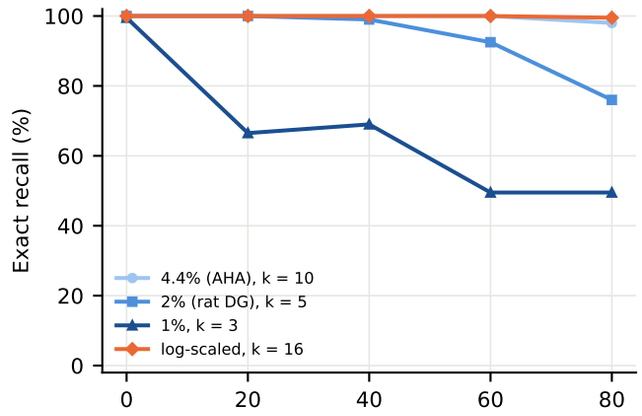

Covariance, 4,000 cells: overlap gained

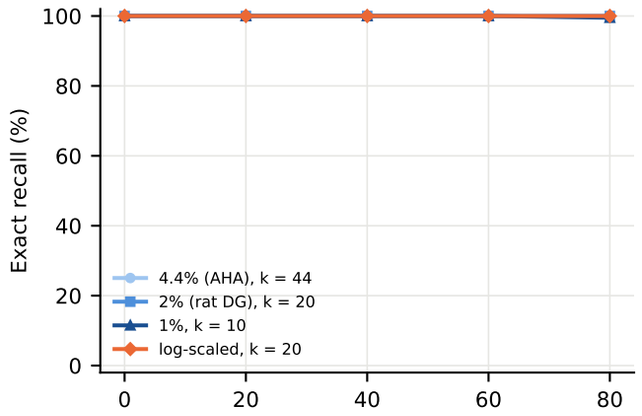

Covariance, 16,000 cells: overlap gained

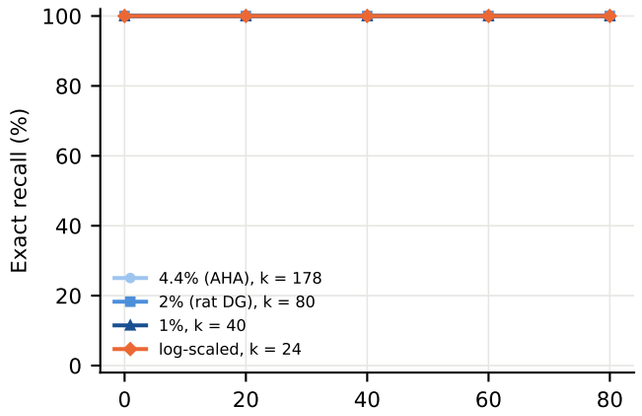

Clipped binary, 225 cells: exact recall

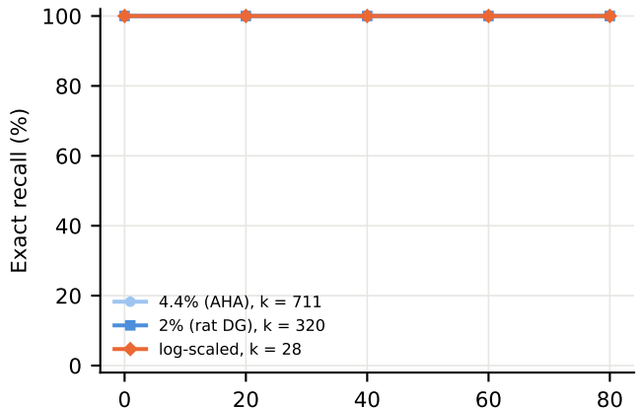

Clipped binary, 1,000 cells: exact recall

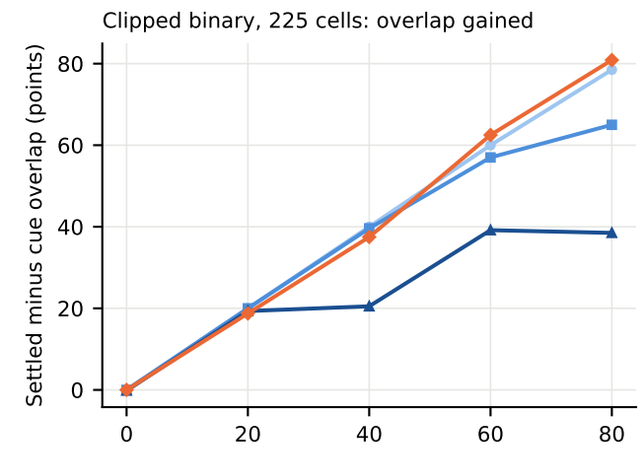

Clipped binary, 4,000 cells: exact recall

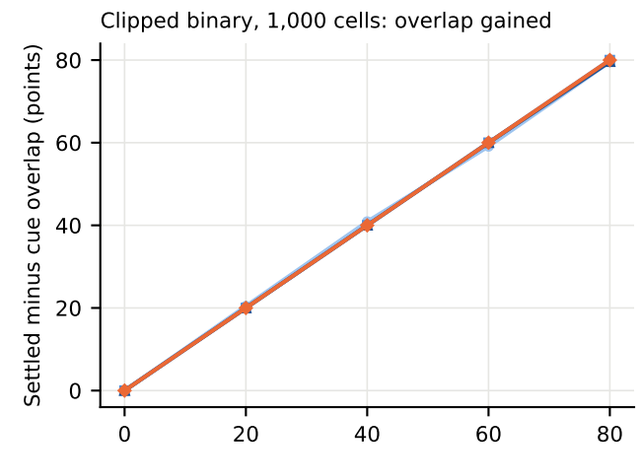

Clipped binary, 16,000 cells: exact recall

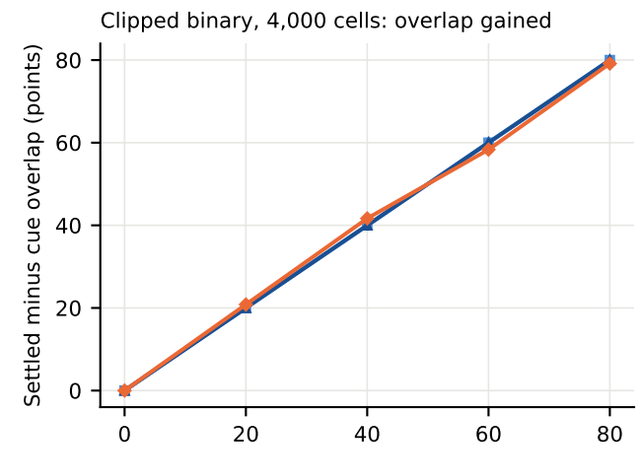

Clipped binary, 225 cells: overlap gained

Clipped binary, 1,000 cells: overlap gained

Clipped binary, 4,000 cells: overlap gained

Clipped binary, 16,000 cells: overlap gained
